

APP REDESIGN

微光 APP改版

在微光的宇宙里，每颗孤独的星辰，都能找到同频的共振。

WEIGUANG

项目背景

PROJECT BACKGROUND

微光 是一款年轻化社交APP内容包含诸多年轻化功能 其主要功能为有丰富的直播厅 观影厅 连麦厅 畅聊厅，社交友好 社牛狂喜 独处不孤独，

TWILIGHT IS A YOUNG SOCIAL APP, WHICH CONTAINS MANY YOUNG FUNCTIONS. ITS MAIN FUNCTION IS TO HAVE A RICH LIVE BROADCAST HALL, A MOVIE VIEWING HALL, A CHAT HALL WITH A WHEAT HALL, AND A SOCIAL FRIENDLY SOCIETY.

用户人群

USER POPULATION

年龄分布

用户主要以青少年群体为主

年龄分布

女性用户多于男性用户

竞品分析

COMPETITIVE PRODUCT ANALYSIS

积木

社区安全风险高:"杀猪盘"等诈骗案件频发,审核机制存在漏洞

用户体验落差大:产品宣传的“灵魂匹配”“高期待与现实中的“尬聊”、肤浅交流形成反差,导致用户失落感强

付费体验引反感:部分功能需持续充值(如语音通话超时付费),被用户诟病为“金钱社交”,破坏社区氛围

SOUL

社区氛围复杂:平台被指存在虚假宣传、诱导刷礼物等投诉

用户增长乏力:月活用户增长缓慢,面临流量天花板,对年轻用户吸引力减弱

商业模式依赖直播:营收严重依赖直播业务,但其秀场直播模式存在合规风险,且直播业务本身增长也面临压力

陌陌

匹配方式较为单一:其匹配成功率比较看重颜值,虽然也有其他兴趣标签等功能作为次要匹配方式,但整体上更偏向“看脸”社交

现有问题

EXISTING ISSUES

微光上线一段时间后，数据及设计侧发现了以下三个明显的问题，需要被解决。

After weiguang was launched for some time, the data and design side found the following three obvious problems that needed to be solved.

视觉一致性不足

色彩运用、图标风格

缺乏视觉引导

焦点元素、操作指引

信息层级不够清晰

文字排版、页面布局

旧版首页

改版目标

REVIION GOAL

作为年轻化社交软件最重要的社交属性和其他玩法功能布局太过单调，没有凸显社交趣味性和部分视觉板式老气，这是本次版本迭代最主要的更新方向，优化趣味性，减少用户对页面的视觉单调观感和优化视觉，实现更多的日活用户数、更高的社交玩法、更高的付费转化。

As the most important social attributes and other gameplay functions of young social software, the layout is too monotonous, which does not highlight social fun and some visual cliches. This is the main update direction of this version iteration, optimizing fun, reducing users' monotonous visual perception of the page and optimizing vision, and realizing more daily users, higher social gameplay and higher paid conversion.

A diagram consisting of three overlapping circles arranged horizontally. The left circle is labeled '视觉一致性不足' (Insufficient visual consistency), the middle circle is labeled '强化视觉引导' (Strengthen visual guidance), and the right circle is labeled '信息层级梳理' (Information hierarchy梳理).

色彩规范

COLOR SPECIFICATIONS

微光APP中，我们设定了的微光主色为年轻化的蓝。这个颜色的选取更符合年轻人的气质，为增加活力在界面设计中按钮及一些页面采用品牌渐变色使用。还有其他多个辅助颜色进行搭配，使得页面整体看起来更加舒适。

ICON

清晰的视觉层次：图标与文字标签的组合，确保了信息传达的准确性，避免了用户的理解歧义。

精准的用户定位：“微光”、“广场”等命名方式新颖且富有情感，区别于传统的“首页”、“社区”，更贴合年轻用户追求个性与共鸣的心理。

品牌基因注入：将品牌名称“微光”作为首要标签，巧妙地将品牌核心价值融入用户操作路径，强化了品牌记忆点。

原型图

PROTOTYPE DIAGRAM

启动页

STARTUP PAGE

采用简约扁平的年轻化设计语言，通过几何图形（圆形表情符号）传递亲和力，契合“社交友好、社牛狂喜”的产品定位。图形元素无复杂纹理，以“线条+色块”的极简构成，降低视觉负担，快速建立用户对“年轻化社交工具”的认知，同时视觉设计深度呼应“微光”的品牌理念——“让孤独星辰找到同频共振”

Adopt a simple and flat young design language, and convey affinity through geometric figures (circular emoticons), which is in line with the product positioning of "social friendliness and social ecstasy". The graphic elements have no complex texture, and they are made up of "lines and color blocks" in a minimalist way, which reduces the visual burden and quickly establishes users' cognition of "young social tools". At the same time, the visual design deeply echoes the brand concept of "Twilight" - "Let lonely stars find the same frequency resonance"

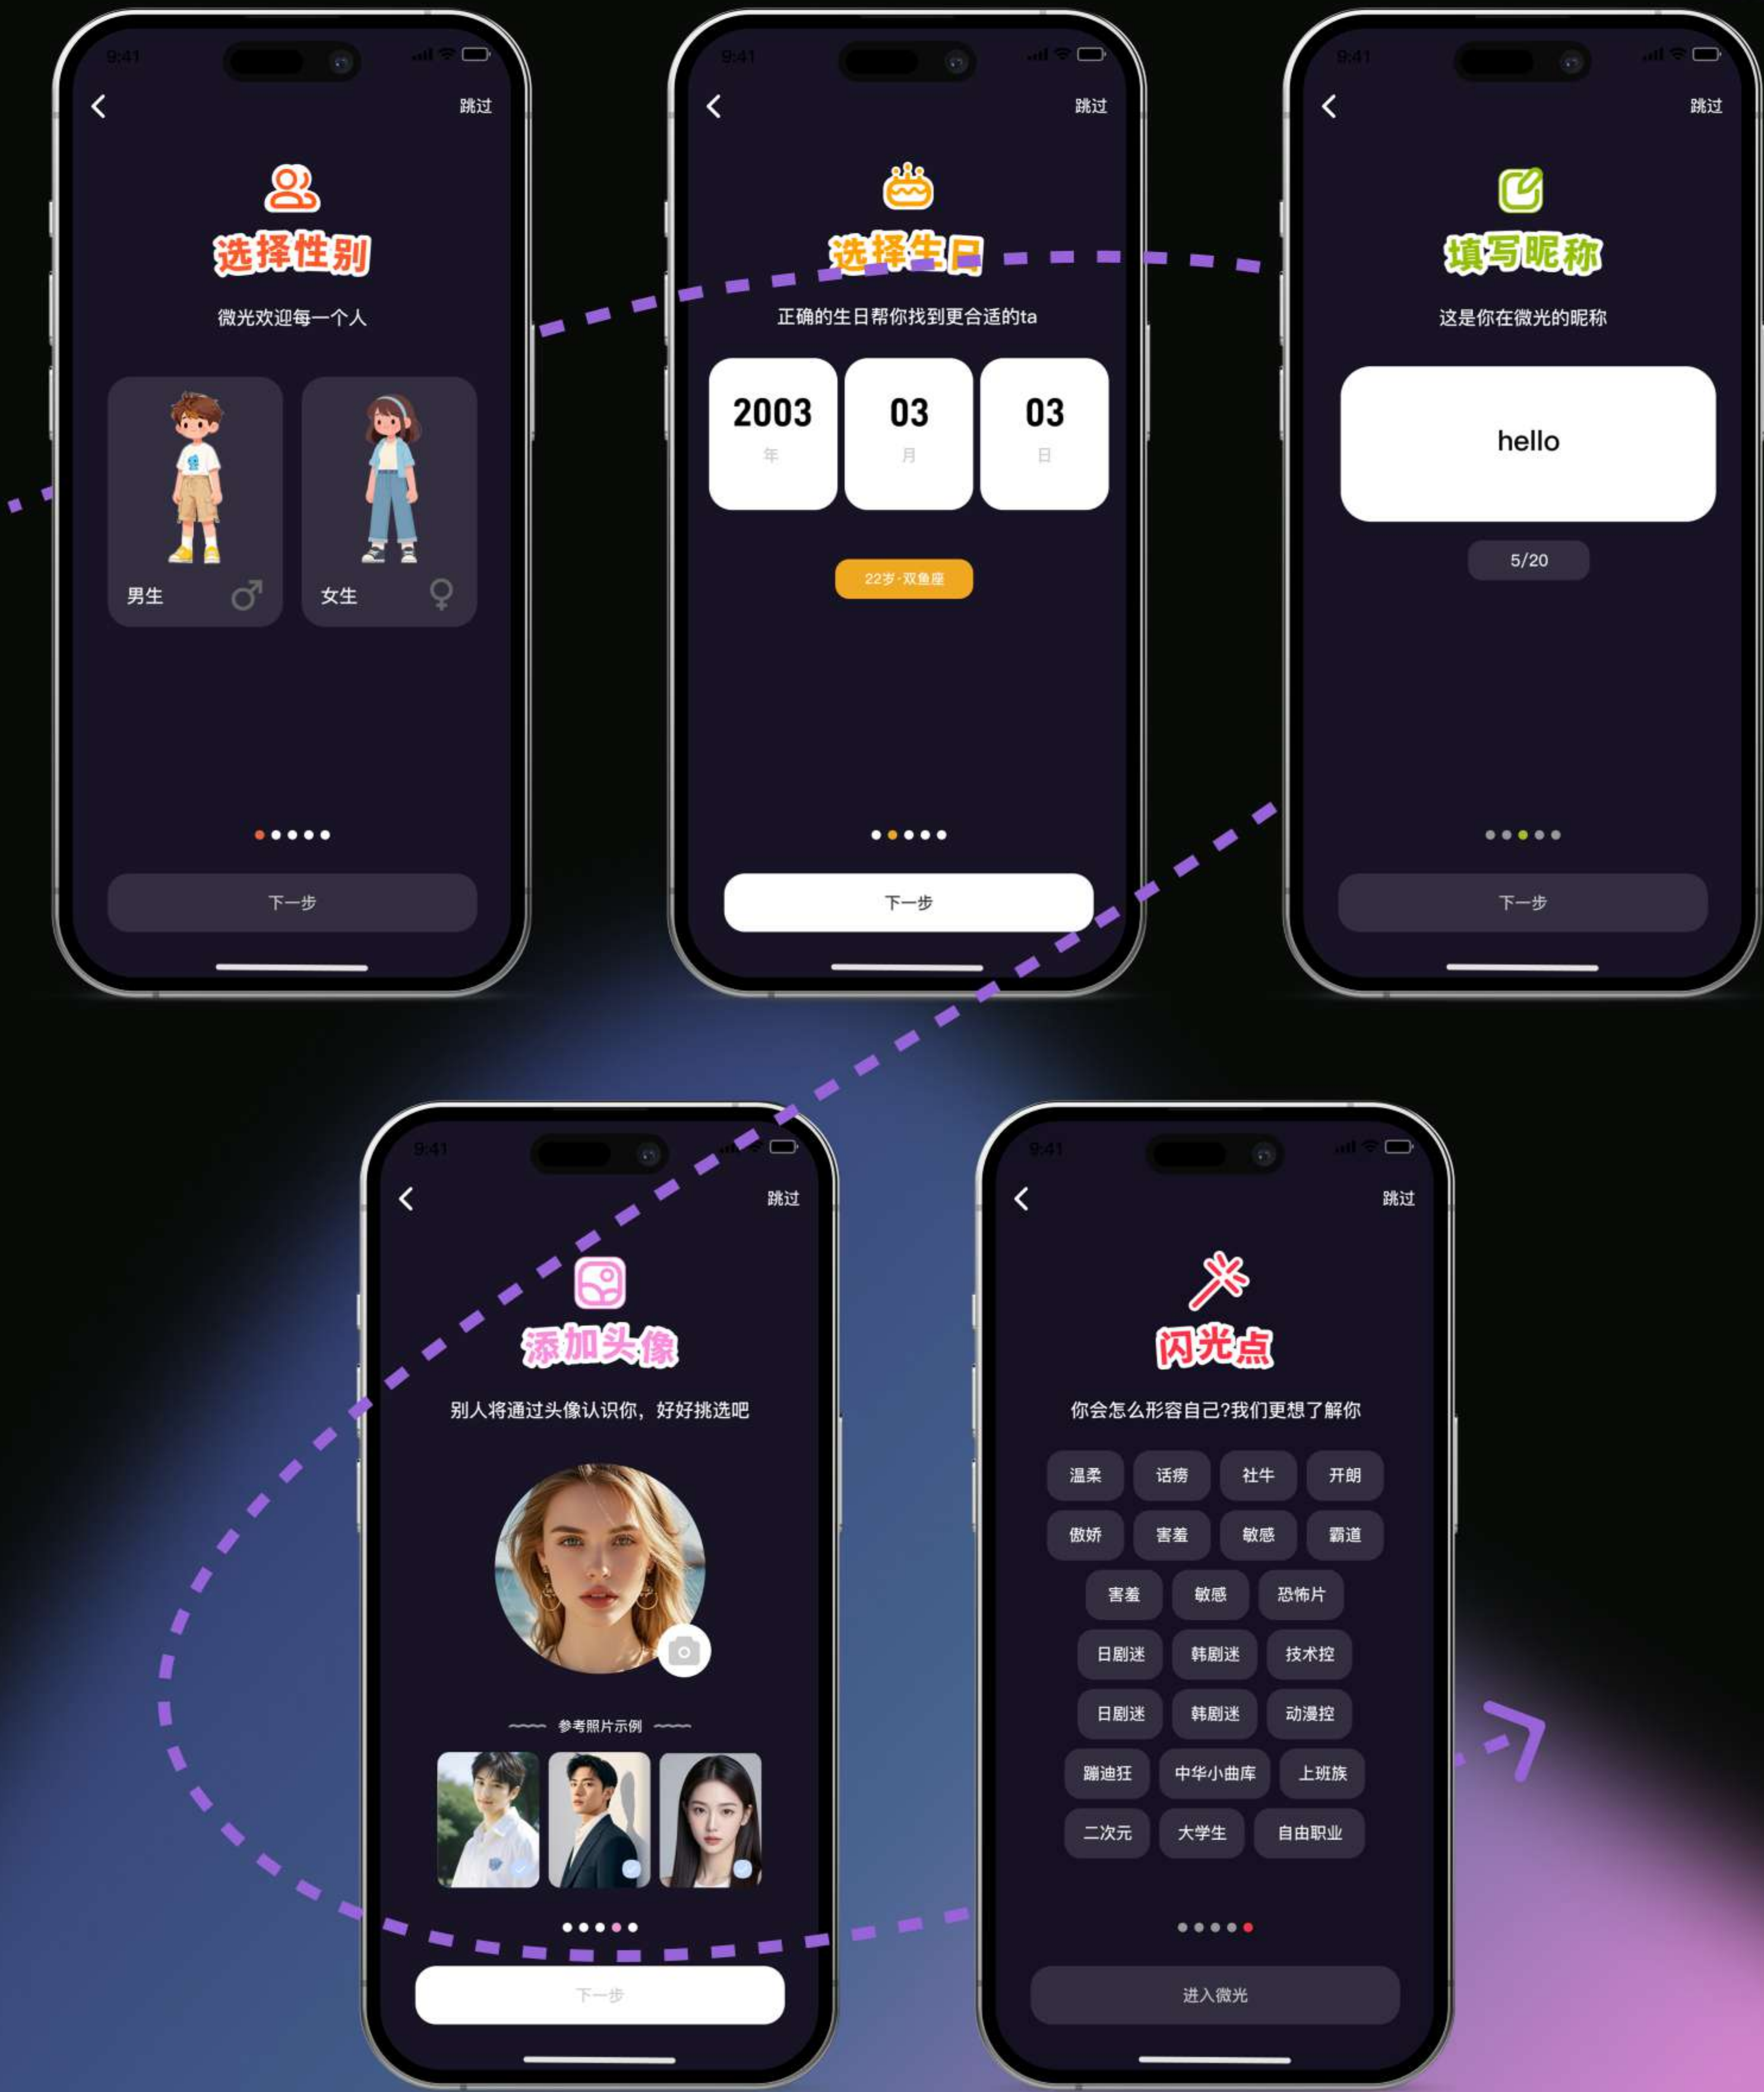

引导页

GUIDE PAGE

延续了启动页的年轻化扁平设计语言，以深色背景（深黑紫调）为基底，搭配高饱和度的图标与文字，通过色彩编码（橙色、黄色、绿色、粉色、红色分别对应不同步骤）区分流程节点，既强化品牌视觉识别，又让操作节奏更具层次感，与启动页的“简约年轻化”风格一脉相承。

It continues the younger flat design language of the startup page, with dark background (dark black and purple tone) as the base, with high saturation icons and characters, and distinguishes process nodes by color coding (orange, yellow, green, pink and red correspond to different steps respectively), which not only strengthens brand visual recognition, but also makes the operation rhythm more layered, which is in line with the "simple and youthful" style of the startup page.

首页

HOME PAGE

从用户体验出发，首页布局简洁直观，核心功能突出展示，次要功能有序排列。采用模块化设计兼顾拓展性，合理利用屏幕空间提升屏效比，让用户能快速找到所需功能，操作流程顺畅自然带来高效舒适的浏览体验。

From the perspective of user experience, the homepage layout is simple and intuitive, making rational use of screen space to enhance screen efficiency ratio, allowing users to quickly find the required functions, with a smooth and natural operation process, bringing an efficient and comfortable browsing experience.

*直播厅页面

LIVE BROADCAST HALL PAGE

这两个页面是微光 APP 针对“社牛”“社恐”两类核心用户的场景化设计落地。针对社牛用户，通过“密集社交元素、强互动功能、付费刺激”的设计，打造“热闹且有参与感”的畅聊场域。

针对社恐用户，通过“卡通 IP 内容、弱化社交元素、极简交互”的设计，构建“低压力、内容驱动”的放映场景。

From the perspective of user experience, the homepage layout is simple and intuitive, making rational use of screen space to enhance screen efficiency ratio, allowing users to quickly find the required functions, with a smooth and natural operation process, bringing an efficient and comfortable browsing experience.

社交友好

畅所欲言

独处不孤独

社牛狂喜

娱乐

ENTERTAINMENT PAGE

微光APP的“娱乐”页面是其核心功能页，以“视觉聚焦、场景分层、情感共鸣”为策略，将年轻化社交理念转化为功能体验。它通过鲜明的视觉、流畅的路径和温暖的设计，在高效传递功能价值的同时，强化了“同频共振”的品牌主张，是功能、体验与品牌三维协同的典范。

The "Entertainment" page of Twilight APP is its core function page, which takes the strategy of "visual focus, scene layering and emotional resonance" to transform the young social concept into a functional experience. Through bright vision, smooth path and warm design, it effectively conveys functional value and strengthens the brand proposition of "same frequency resonance", which is a model of three-dimensional synergy between function, experience and brand.

蒙面闪聊

进行快速匹配有相同意向的人进行聊天，更快速和共鸣的进行社交

心动连麦

通过每日赠送10张心动连麦卡，随机匹配不同异性连麦
可以使用充值赠送的棒棒糖定向选择心动的连麦对象

广场

SQUARE

该“广场”页面，以“分层引导+场景化交互”为设计策略，将“内容消费、生产、互动”三大环节融为一体。

视觉上，通过深紫品牌色与卡通元素的结合，打造年轻化社区氛围；体验上，以“新人引导-动态浏览-话题探索”的流程，降低用户社区参与门槛；功能上，每处互动入口（发布、评论、话题）都服务于“让用户找到同频者”的核心目标。

这种设计既保障了社区内容的丰富性，又通过交互细节强化了社交粘性，是“品牌视觉+用户增长+社交价值”三维协同的典型用例，展现 UI 设计在“社区型产品场景落地”中的关键作用。

This "Plaza" page, as the UGC hub of WeLight APP, integrates content consumption, creation, and interaction with the strategy of layered guidance and scenario-based interaction. Visually, it builds a youthful community atmosphere through deep purple brand color and cartoon elements. Experience-wise, the process of "newcomer guidance - feed browsing - topic exploration" reduces users' participation barriers. Functionally, all interaction entries (publishing, commenting, topic) serve the core goal of "finding like-minded people". It ensures content richness, enhances social stickiness, and is a typical case of the synergy among brand vision, user growth, and social value, demonstrating UI design's key role in community product scene implementation.
